OBJECTIVE

Enthusiastic B.Tech student with hands-on experience in **React.js**, **JavaScript**, and **full-stack development**. Looking for an internship to apply my skills in real-world projects and grow as a developer through practical learning and collaboration. .

EDUCATION

Bachelor in Technology(CSE), SVIET ,Punjab

2023- 2027

Relevant Coursework: Data Structures,Object-Oriented Programming using C++ ,Operating Systems,Design and Analysis of Algorithms, Computer Organization and Architecture, Discrete Mathematics

SKILLS

| | |
|-------------------|---|
| Technical Skills | HTML, CSS, JavaScript, React.js, Tailwind CSS, Vite (React project bundler),Express.js, Node.js,MongoDB,Python, MySql, React Native, NativeWind, C, C++ |
| Soft Skills | Team Collaboration, Effective Communication, Problem-Solving, Time Management |
| Additional Skills | Adobe Photoshop, Canva, Figma, VS Code, Git, Github, Vercel |

PROJECTS

InnoSign – Real-time Sign Language Interpreter . Developed a browser extension that translates **sign language into text and voice** during video calls on platforms like Google Meet and Zoom. Utilized **Python (MediaPipe)**, **React.js**, and **WebRTC** to detect ASL gestures, form meaningful sentences, and provide two-way communication for deaf and mute users. Included **Text Sign Voice** conversion, learning modules, and quiz-based engagement features.

Artisan Connect 3 – Tourism & Handicraft Marketplace . Built a platform to **connect local artisans with tourists**, promoting smart living and cultural experiences. Included features like **artisan-guided tours**, **handmade product sales**, and **location-based hidden gem rewards**. Future vision includes **AR/VR integration** for immersive travel. Tech stack: **React.js**, **MongoDB**, **Express**, **Tailwind CSS**.

Notes Dashboard App . Created a fully functional note-taking platform with **card-based layout**, **tag filtering**, and **local storage integration**. Enabled users to **create, edit, and save notes** with an integrated text editor. Also added **analytics features** like most-used tags, note frequency, and average length tracking. Built with **React.js**, **Node.js**, **Express**, and **MongoDB**.

ACHIEVEMENTS

- **Topper of the Branch** with a **9.15 CGPA**, consistently performing in academics and technical domains.
- **Participant** in **Google Solution Challenge** with an impactful accessibility-focused project (*InnoSign*).
- Completed **multiple certifications** in **Web Development**, **AI/ML**, and **UI/UX**, demonstrating continuous learning and skill enhancement.
- Built multiple full-stack projects including **real-time communication tools**, **safety-based apps**, and **marketplace platforms** using modern technologies like **React.js**, **Node.js**, **MongoDB**, and **Python**.
- Presented tech solutions at college-level hackathons and **innovation challenges** with real-world problem-solving focus.

LANGUAGE

- **Hindi** – Native / Bilingual Proficiency
- **English** – Working Proficiency
